

The TECTA Career Lattice

A Format for Early Childhood Professional Development

Professional development, also known as continuing education, should be an essential component of your career growth and plan. As with your other life goals, it is recommended that you develop a personalized action plan designed to help you achieve your goals.

When thinking about your career goals, ask yourself these questions:

- How can I improve or strengthen my work performance?
- What are the key areas I want or need to develop to remain skilled in my profession?
- What are new skills and knowledge I will need in the future?

After you determine which path you want to follow, or if you need help choosing a path, call or visit your local TECTA office for more information about how to get started.
